PROFILE

Frontend engineer skilled in building scalable web applications using TypeScript, React.js, and Next.js. Specializes in creating intuitive UIs and AI-driven tools, with experience delivering high-quality user experiences in fast-moving, startup-like small teams.

EXPERIENCE

Frontend Engineer

Vectorshift (YC S23), Remote

Jan 2025 – present

- Built analytics dashboards in Next.js/React, improving workflow visibility and reducing debugging time by approximately 30%.
- Developed Workbooks for running parallel pipelines, boosting user productivity by approximately 25%.
- Created a Marketplace for publishing and importing workflows, driving over 40% template adoption.
- Contributed to a React Flow-based no-code AI builder.

Founding Frontend Engineer

Permar AI, Remote

Jun 2023 – Nov 2024

- Built an AI tool that converts ideas into blogs, reducing content creation time to minutes.
- Developed a custom Lexical editor and a modular page builder using React and JSON schemas.
- Implemented an in-house A/B testing tool and improved reliability through Puppeteer E2E tests.
- Used Next.js SSR to improve SEO and reduce load time by approximately 40%.

Software Engineer

Hushl pvt ltd, Remote

Jul 2022 – Jun 2023

- Built an AI-powered Chrome extension for LinkedIn and X, reaching 5,000+ installs.
- Created collaborative content tools with clean UI using pure CSS.
- Delivered the full MVP in 20 days, enabling rapid product validation.
